The World is All Right.

Judging from the following in the Salt Lake Herald the American Fork World is getting into line:

American Fork, Nov. 3.

To the Editor of The Herald:

The Democratic candidates for Utah county, at the suggestion of their chairman, allowed short biographical sketches of themselves to be printed and selected as the paper for this purpose the American Fork World, that being the only Democratic paper published in the county outside of Provo. The editor, who is a Democrat, did not inform the Republican local committee of the intended publication until the paper containing the written made its appearance. This morning Messrs. A. K. Thornton, Peter Adamson and E. H. Boley, prominent Republicans of this place, together with Bishop W. D. Robinson, Republican candidate for commissioner, called in a group on the World and requested to have their papers stopped, stating that they would not support a local Democratic paper. If local papers have to sacrifice independence to gratify the wishes of every rabid partisan set, they may as well shut up shop. This, we understand, the World has no intention of doing.

People who are so narrow minded that they are unwilling to allow the editor of a newspaper the right to his own opinions are too narrow and contemptible to deserve the right to read a newspaper. Further comment is unnecessary.
